Ebenezar has shared the stage with Undefeated, Stars Will Fall, End of I, From Ravens to Doves, Relentless Flood, and Behold the Beloved

Female fronted Ebenezar is an Ohio based rock band founded by bassist Tim Daugherty and drummer Mark Knott. While they have only been together since 2024, they bring with them a lifetime of musicianship and performance experience, including Mark's 20 years playing professionally on the road and in studio with everyone from The Black Crowes to Charlie Daniels, Jars of Clay, The Gaithers and Marilyn Manson. And too many more to name. What sets Ebenezar apart is the music they play. Of course you'll hear some old favorites but we dig deep to find some really good, hard rocking music that you may not have heard before. And who knows? You may just find your new favorite song! While we're primarily a hard rock cover band, we're not opposed to original music either. The way we see it every song was an original once. And we love to bring our version of these original songs to new audiences everywhere - or to fans that love them, but can't afford the big ticket concert/festival pricing. Our style is raw - we're not "track heavy" like many bands today. Nothing wrong with tracks - we just prefer the old school way of straight ahead Rock n Roll. We cover classics from bands like Chevelle, Flyleaf and 3 Doors Down, and modern artists like Dorothy, Reborn Band and Behold the Beloved. You'll hear a few popular tunes, and a few obscure. What's important is these songs absolutely ROCK, and have a positive message.

We are well suited to play concerts, festivals, church/youth group events, shows of all kinds. With our diverse song list, we can tailor our setlist for your event. In our short time together we have already opened for several bands including the 3D Tour in Akron featuring ***Relentless Flood*** and ***Behold the Beloved***, and were asked to open Broken Bottle Festival 2026 in Columbus, Ohio.
